

Excellent clinical results with the Conometric Concept – foundation for the Acuris development

PUBLISHED RESULTS WITH DENTSPLY SIRONA IMPLANTS PRODUCTS

UP TO
5 years
of clinical follow-up

 **182** patients
 **364** implants

Results from prospective studies showed that fixed partial restorations supported by conical abutments and Ankylos implants is a viable treatment option. Stable hard and soft tissues, high implant survival rates and few complication were reported.

Advantages of using the Conometric Concept

- Cement- and screw free
- Friction retained
- Fixed for the patient
- Retrievable by the dentist

Maintained retention over time

Stable hard and soft tissue levels
